

CLAIMS

I claim:

1 1. A unisex active wear garment with modified fly-flap and
2 storage pockets, comprising:

3 a torso section defining a waist opening, the torso section
4 having a front and a rear;

5 a pair of legs extending from the torso section and defining
6 leg openings, a crotch opening being defined in the torso section
7 between the legs;

8 a fly-flap having a lower end attached to the rear of the
9 torso section and an upper end releasably attached to the front
10 of the torso section, the fly-flap covering the crotch opening
11 when attached to the front of the torso section, the fly-flap
12 having a front surface and a rear surface;

13 a releasable fastener attached to the rear surface of the
14 fly-flap and the front surface of the torso section; and

15 at least one pocket attached to the front surface of said
16 fly-flap.

1 2. The unisex active wear garment according to claim 1,
2 wherein said releasable fastener comprises mating sections of
3 hook and loop fastening material attached to said fly-flap and
4 said torso section, respectively.

1 3. The unisex active wear garment according to claim 1,
2 wherein said at least one pocket consists of a single pocket
3 having an opening extending towards the waist of said torso
4 section.

1 4. The unisex active wear garment according to claim 1,
2 wherein said at least one pocket consists of a single pocket
3 having an opening extending laterally towards one of said legs.

1 5. The unisex active wear garment according to claim 1,
2 wherein said at least one pocket comprises a first pocket having
3 an opening extending towards the waist of said torso section and
4 a second pocket having an opening extending laterally towards one
5 of said legs.

1 6. The unisex active wear garment according to claim 1,
2 wherein said at least one pocket is made from waterproof
3 material.

1 7. The unisex active wear garment according to claim 1,
2 wherein said at least one pocket has an opening defined therein
3 and a releasable fastener disposed about the opening for closing
4 the pocket.

1 8. The unisex active wear garment according to claim 1,
2 wherein said at least one pocket has an opening defined therein
3 and a zipper fastener disposed about the opening for closing the
4 pocket.

1 9. The unisex active wear garment according to claim 1,
2 further comprising an elastic waistband disposed about the waist
3 of said torso section.

1 10. The unisex active wear garment according to claim 1,
2 wherein said torso section and said legs are made from spandex.

1 11. The unisex active wear garment according to claim 1,
2 further comprising a liner disposed on the rear surface of said
3 fly-flap.

1 12. The unisex active wear garment according to claim 1,
2 wherein the lower end of said fly-flap is sewn to the rear of
3 said torso section.

1 13. The unisex active wear garment according to claim 1,
2 wherein the lower end of said fly-flap is releasably attached to
3 the rear of said torso section.

1 14. The unisex active wear garment according to claim 1,
2 further comprising a second releasable fastener attached to the
3 rear of said torso section and to the front surface of said fly-
4 flap, whereby said fly-flap is drawn between said legs and
5 temporarily attached to the rear of said torso section in order
6 to expose the crotch opening for eliminating bodily waste.

1 15. The unisex active wear garment according to claim 14,
2 wherein said second releasable fastener comprises mating patches
3 of hook and loop fastening material.

1 16. The unisex active wear garment according to claim 15,
2 wherein the lower end of said fly-flap is releasably attached to
3 the rear of said torso section, and wherein said at least one
4 pocket comprises four pockets, including a first pocket having an
5 opening extending towards the upper end of said fly-flap, a
6 second pocket having an opening extending laterally towards one
7 of said legs on the upper end of said fly-flap, a third pocket
8 having an opening extending towards the lower end of said fly-
9 flap, and a fourth pocket having an opening extending laterally
10 at the lower end of said fly-flap.

1 17. The unisex active wear garment according to claim 16,
2 wherein each of said four pockets further comprises a zipper
3 fastener disposed about the pocket opening.
